about

Product designer with 10+ years in fintech and enterprise SaaS. From conversational AI to high-stakes trading tools, I turn complex workflows into products people trust.

work experience

Design Manager - Upstox

Mumbai · January 2024 - Present

Designed and shipped Strategy Builder across web and mobile for F&O traders driving a 30% increase in segment revenue.

Manage a team of 6 designers — planning, design reviews, mentoring, career guidance, and creating design visibility for leadership.

Senior Product Designer — Kore.ai

Remote · September 2020 – July 2023

Led design for SmartAssist, an AI-native support product. Shaping how AI agents handle live conversations (trust, escalation, handoff).

Built a low-code/no-code automation app from the ground up (0-to-1), adopted by multiple enterprises; drove a 50%+ drop in onboarding drop-offs on the XO platform.

education

2013-2016

Post Graduate Diploma in UXD

MIT World Peace University

2008-2012

Bachelor of Computer Applications (Science)

G.H.Raisoni Institute, Nagpur University
